## ABOUT US

The Klia Premier Holdings Sdn. Bhd. is the parent company of nine (9) subsidiaries company involved in various fields including construction, project management, consultancy, Training, Engineering, Design, Information Technology (IT) and others.

The business first started by KLIA Consultancy Services Sdn Bhd (KLIA Consult) evolved from the KL International Airport Berhad's (KLIA Berhad) remarkable accomplishment in project managing the KL International Airport (KLIA) Project to successful completion. We have spread from being a company specialising in Project Management and Technical Consultancy Services into several other companies. Each of our subsidiary specialises in its own core business.

As a group we engage in the following businesses; Project Management and Technical Consultancy, Project Strategic Planning, Education and Training, Construction, Trading and finally, Information Technology. The companies have gone beyond just 'KLIA' and Malaysia into the Asean region, Middle East as well as other parts of the world.

From developing the airport, we had moved into dams, railroads, monorail, bridges, highways and roads, buildings, as well large ICT projects.

Our Vision is to be the leading provider and the household name in all the avenues that we venture. This we will achieve by delivering quality and cost effective services to all our clients globally and we will lead the way in using the state of the art technology to achieve the above in an innovative as well as environmental friendly manner. We are an equal opportunity organisation and we provide equal opportunities to our employees with maximum professional development and optimum rewards. Our stakeholders will be rest assured of expecting fair returns.
